

# TENNESSEE DEPARTMENT OF HUMAN SERVICES

## ***SUMMARY OF LICENSING REQUIREMENTS FOR FAMILY CHILD CARE HOMES***

This summary is intended as a guide for parents of children in family child care homes. It outlines some of the requirements child care providers must meet in order to be licensed. **The purpose of licensing is protection of children.** The Department of Human Services has the legal responsibility for licensing homes, that provide child care for 5-7 children. Questions about license requirements or concerns about a home's compliance with them should be referred to the local DHS offices. You may ask your child care provider to see a rule book (Standards for Family Child Care Homes").

### **I. Administration**

1. Children in child care shall be at least six weeks old.
2. This summary shall be given to parent(s) of each child enrolled.
3. Specific policies are required to be in written form
4. A policy statement signed by caregiver and parent shall be on file
5. Parents shall be permitted access to their children and shall be informed in advance of removal from premises.
6. The following records shall be kept:
  - three recommendations for each caregiver
  - adult health records child health records
  - daily attendance records
  - children's records containing identifying and emergency information and a parent-caregiver communication plan.
7. A child's and family's privacy and confidentiality shall be protected.
8. A current license shall be posted conspicuously
9. All agencies will undergo an evaluation prior to the expiration of their license and be required to post a report card that outlines the results of the evaluation
10. General liability and medical payment insurance coverage is required on the operations of the facility.
11. When transportation is provided:
  - the driver shall be licensed.
  - General liability and medical payment insurance coverage required for injuries of children being transported.
  - children shall not be left alone in vehicle.
  - staff shall use passenger log to take roll during transportation
  - passenger log shall be reconciled with attendance records
  - driver or caregiver shall conduct physical walk through and inspection of vehicle after unloading the last child.

- Additional staff person shall also verify the reconciled log and conduct physical walk through and inspection.
- There shall be a plan for emergency transportation.
- Children under four years of age shall be fastened in individual seat belts.
- Children are not allowed to ride in the floor
